Texas has a new railroad law which provides for a State Engineer, who shall inspect the roads and their methods to prevent unjust discrimination, under a penalty of fine in the sum of \$500 for each offence. Passenger fare is fixed at three cents a mile for adults.

The opinion about a man's sanity property would be left, it argues, would be been filed. much more valuable than that of persons "cut off with a shilling." Under the present system those who get his money always have perfect faith in the shrewdness and clear-headedness of the testator. Those who are left out in the cold have his incapacity.

It is evident that when the Nationa debt is finally paid off the United States will be found to be a large gainer through the destruction and loss of its paper promises to pay. Every month the debt on which interest has ceased, and for which no one claims payment, increases until there is now lying in the Treasury nearly eleven millions of unclaimed principal and interest, which has accrued at various dates from 1837 and earlier, down to December 23, 1882. Of the \$40,000,-000 of fractional paper currency issued during and since the war \$15,386,512 are still outstanding, and redemptions have almost ceased. By act of Congress passed in 1879, \$8,375,934, which it was estimated had been destroyed, were declared canceled and entered as paid on the Treasury books. A more correct estimate of the Government gain from this source would have been \$15,000,000, or more than 30°per cent, of the amount issued. The Government gain of the \$346,000,000 legal-tender notes will doubtless be very large, though a much smaller percentage than in the case of fractional currency, where the wear and tear were very great. Whether the Government or the banks will eventually receive the benefit arising from lost and destroyed bank currency is a point not yet definitely determined, but it seems reasonable that for the currency lost while in the possession of the people themselves, through the Government, should receive what benefit shall finally accrue on account of this destruction.

Big Fire at Cleveland.

CLEVELAND, O., April 20 .- At 3 o'clock this morning the planing, sash and blind mill of Davidson & House, the largest in the city, took fire, and is now a mass of flames. Two boarding houses near by are on fire, and the occupants barely escaped. The flames were spreading to the adjacent lumber yards and are beyond control of the fire department. The loss on property already destroyed is \$100,000.

Murdered for His Money. MILWAUKEE, WIS., April 20 .- The remains of Fritz Berner, a German brower

were taken out of the lake last night There was a fearful gash over the right eye. He had been missing three days, and it developed this morning that he drew \$806 out of bank the day he disappeared. Detectives are sure that he was murdered for his money.

Here's Another" Number One." DUBLIN, April 20 .- It is stated that Eugene Kingston arrested at Liverpool yesterday on suspicion of being connected with the Phoenix Park murders, was for some time head of the inner circle of Invin-

An Express Robbery.

INDIANAPOLIS, IND., April 20 .- A \$5,000 package deposited in the American Express by the Meredian National Bank for Kansas, Ill., is missing. The express clerk, Frank A. Vaughn, was accused o the theft and admitted his guilt.

2,900 German Emigrants.

CHICAGO, April 20 .- To-morrow there wil arrive over the Baltimore and Ohio railroad 2,900 emigrants, landed yesterday in Bal timore by steamers sailing from Bremen They are mainly bound for Dakota.

A Pittsburg glass manufacturer has the contract for making an urn of plate glass for the ashes of Columbus, the discoverer of America. When he died he was buried at the convent of St. Francis, in Seville, only to be disinterred, and after several funerals, with an interval of some equally pronounced convictions about years between each, was brought back across the water, where he was buried in American soil. His bones were subsequently removed to the Cathedral of Santa Domingo. The castodians of the remains have sent a communication to a South Side firm announcing the intention and asking for the design of an urn and an estimate of the cost. The letter stipulated that the urn must be large enough to hold the casket with the lid open, that the inscription may be visible; the urn must be ornamental, yet nothing in the design must interfere with a clear view of the casket, while it was particularly stipulated that the urn when completed must be graceful and attractive in appearance. The casket is small. The space within the urn must be 17.94 inches in length, 8.19 inches m width and 13 65 inches in depth. Within those dimensions the casket and the dust can be
